Hello, Genius Billionaire Playboy Philanthropist

The Army is contacting you about your project which interests us a lot!  
We have heard about a construction of an armor with an exoskeleton for the upper part of it and we are eager to see the result. For this we would like to establish a partnership with your star-up in order to help you in the realization of your project and that this one can succeed.

We are waiting for your answer!

Kind regards,

The Army.
